

## Notes

Estimated time to complete this lab: **30 minutes**.

## Hands-on:

### Home.js

```
student-app > src > components > JS Home.js > default
1  import React, { Component } from 'react';
2
3  class Home extends Component {
4    render() {
5      return (
6        <div>
7          <h3>Welcome to the Home Page of
8            Student Management Portal</h3>
9        </div>
10      );
11    }
12
13  export default Home;
```

### About.js

The screenshot shows the VS Code interface. On the left, the file explorer displays the project structure: `myfirstreact`, `student-app`, `node_modules`, `public`, `src`, and `components`. The `components` folder is expanded, showing `About.js` (selected), `Contact.js`, `Home.js`, `App.css`, `App.js`, `App.test.js`, `index.css`, `index.js`, `logo.svg`, `reportWebVitals.js`, `setupTests.js`, `.gitignore`, `package-lock.json`, `package.json`, and `README.md`. The code editor on the right shows the content of `About.js` with line numbers 1 through 13. The code is as follows:

```
1 import React, { Component } from 'react';
2
3 class About extends Component {
4   render() {
5     return (
6       <div>
7         <h3>Welcome to the About Page of
          Student Management Portal</h3>
8       </div>
9     );
10  }
11 }
12
13 export default About;
```

## Contact.js

The screenshot shows the VS Code interface. On the left, the file explorer displays the project structure, with `Contact.js` selected in the `components` folder. The code editor on the right shows the content of `Contact.js` with line numbers 1 through 13. The code is as follows:

```
1 import React, { Component } from 'react';
2
3 class Contact extends Component {
4   render() {
5     return (
6       <div>
7         <h3>Welcome to the Contact Page
          of Student Management Portal</h3>
8       </div>
9     );
10  }
11 }
12
13 export default Contact;
```

## App.js

```
student-app > src > JS App.js > ...
1  import React from 'react';
2  import Home from './components/Home';
3  import About from './components/About';
4  import Contact from './components/Contact';
5  import './App.css';
6  function App() {
7      return (
8          <div className="App">
9              <Home />
10             <About />
11             <Contact />
12          </div>
13      );
14  }
15
16  export default App;
```

## Output:

Welcome to the Home Page of Student Management Portal

Welcome to the About Page of Student Management Portal

Welcome to the Contact Page of Student Management Portal
